It Is An Undisputed Fact!

That there are several different kinds of people in this world, ONE KIND think that they must pay a high price for anything or else it is not good.

This is the Class

We are after. High prices paid for buggies do not necessarily mean high quality.

We are selling a buggy that we know is the best vehicle made anywhere (our guarantee against any kind of breakage from any reason whatever proves that) and the prices we are making would cut very close to low quality buggies. We are not OLD TIME buggy men and do not know that we must have a GREAT BIG PROFIT on each job we sell. We would rather sell two jobs and make one profit than to make the same amount on one job.

YOU GET THIS OTHER PROFIT

And when we say so you can bet your last dollar that you are getting quality also, the highest quality that can be gotten. Give us a chance to prove it.

Grand Jury Completes Its Labors, Returning a Total of 71 Indictments.

Circuit Court adjourned last Friday and the session will be resumed tomorrow, when the case of Wm. Pulley, indicted for the murder of James D. Brown, will be called. There are about thirty witnesses in the case.

The grand jury also adjourned Friday, after returning 34 bills. This number added to the 37 indictments returned previously makes a total of 71 found at this term. Friday's batch were as follows: Selling liquor without license, 5; carrying concealed deadly weapons, 12; uttering forged order, 1; disturbing religious worship, 1; breaking dwelling house, 1; keeping bawdy house, 1; gaming, 6; creating common nuisance, 3; fornication, 3; assault and battery, 1.

Charles Powers, indicted for the theft of jewelry from Mr. J. R. Reeves, entered a plea of guilty and was sentenced to one year in the Penitentiary.

Joe Hopson, col., under indictment for petit larceny, pleaded guilty and was given 30 days in the work house.

In the suit of John D. Weller, of Ceralean Springs, against Jesse Payne and Mary Alice Payne, plaintiff was given a judgment for \$500.

TOOK CARBOLIC ACID.

Miss Murrel Johnson Commits Suicide Near Sebree.

Madisonville, Ky., June 14—Miss Murrel Johnson, daughter of H. W. Johnson, of Sebree, took carbohc acid just before noon yesterday. It is not known whether it was taken with suicidal intent. The young woman was in her twentieth year, was an epileptic, and had been subject to the fits produced by this disease. Mrs. Johnson was talking to her a few minutes before she heard her fall. When she fell her mother at once went to her assistance, thinking her to be having one of her usual attacks. But her attention was attracted by the odor of carbohc acid and an examination showed the girl's mouth burned by the acid. Miss Johnson died in a few hours.

ANOTHER SUICIDE.

An Asylum Patient Cuts an Artery With a Knife.

Attendant Who Slept in the Room Found the Corpse in the Morning.

D. V. Daugherty, a patient from Ohio county, committed suicide in the Western Asylum Saturday night. He used a piece of a case knife with which he cut an artery in his thigh and bled to death. He was just recovering from a spell of measles. John Connelly was the attendant on his ward. He slept in a bed not ten feet from him in the same room. When he awoke in the morning the dead body was lying on the floor in a pool of blood. It is not known how Daugherty got the knife blade. He was 42 years old and had been in the asylum since last December. He leaves a family. The body was taken to Ohio county. The coroner held an inquest.

Road Supervisor Thos. J. McReynolds has issued an interesting little pamphlet of road laws in Kentucky for the guidance of overseers and contractors. It was compiled by Judge W. T. Fowler and contains not only the State laws, but the orders of the Fiscal Court of the county under which the Supervisor is operating. Mr. McReynolds is making the county a most efficient officer. Being a member of the Fiscal Court himself, he is kept in constant touch with his brother members, in order to give a more thorough direction to road matters. The Court will hereafter hold monthly meetings, on the fourth Friday in each month. Christian county is fortunate in having at this time a most capable Fiscal Court.

SHOCKING SUDDENNESS

Came the News of a Good Woman's Death.

Mrs. Virginia Glass Mercer, wife of Mr. Samuel C. Mercer, died Sunday morning after a brief illness. She was 60 years old and a daughter of the late Zach Glass. Death followed an operation for intestinal impaction, or locked bowels.

Her husband is the well-known capitalist and former journalist. They lived at a beautiful suburban home just north of the city. Besides her husband, she leaves five children—Mrs. J. M. Starling, Mr. Prentice Mercer, Mr. S. C. Mercer, Jr., Mrs. Dr. F. P. Thomas and Mrs. J. O. Littlehals, all of this city.

Many other relatives live here and at other points in the State.

Mrs. Mercer was a lifelong member of the Baptist church and her life was an exemplification of the beauties of the Christian religion. Consistent in her piety, she was ever the friend of the poor and needy.

The funeral services were held yesterday afternoon and the body was laid to rest in the cemetery near her late home.

ERIN vs. HOPKINSVILLE.

The Erin, Tenn., baseball nine will play two games this week with the local nine. The first game will be called at athletic park Thursday afternoon, and the second game will be played Friday afternoon.

The first of the series of games was played at Erin two weeks ago when the locals lost by one score. The two contests this week promise to be very interesting and no doubt will be witnessed by large crowds.

ROOSTER ATTACKS CHILD.

Spur Driven Into Skull and Victim May Die.

The little six-year-old daughter of Mr. Wm. Blankenship, of near Laytonsville, was attacked by a large rooster and badly injured. The child, accompanied by its grand-mother, was spending the day with the family of Mr. J. B. Berry. While the little one was playing in the yard she was attacked by the bird, knocked down, and her face and head were cut in several places. The most dangerous wound was a slice on top of the child's head, when a spur was sunk an inch deep, causing much loss of blood, unconsciousness resulting. It is feared that the child will die of its injuries.

There are other ways besides a

for railroad commissioner from in-

terfering with the race for Governor

next year. For instance there is

a primary election, that might be

held before or after the State con-

vention.

The Republican Congressional

Committee has sent out 50,000

Chas. K. Wheeler on the reception

of Prince Henry of Prussia. On

"What do we care for the good will

Dragged-Down Feeling

reins and driving you into serious trouble.**Hood's Sarsaparilla**
Acts with the most direct, beneficial effect
on the kidneys. It contains the best and
safest substances for correcting and toning
weak organs.The next Democratic state con-
vention should order the party law
that it makes published in pam-
phlet form and distributed over the
state. If the last party laws were
printed at all the circulation was
exceedingly limited. All who have
ever seen a copy of same will please
hold up their hands.—Owensboro
Messenger.The present party law is in effect
the same adopted at Lexington in
1896. It was published in pam-
phlet form in 1899, just prior to the
meeting of the Louisville conven-
tion. No important changes have
been made since, except that at Lex-
ington in 1900 the manner of choos-
ing committees was changed and
an election ordered in November.
Other provisions have not been
changed and there is no demand for
changes, so far as we know, unless
it be that some precautions should
be taken to prevent the calling of
snap conventions, before the year
in which the election is to occur.No action was taken by the Demo-
cratic Committee of the First Rail-
road District, which was called to
meet at Paducah June 12. Two
members—Mott Ayers and Chas. M.
Meacham—were present in person
and Mr. Ayers held the proxy of
Ben D. Ringo. Two other members
were absent. The members present
could not agree as to the time and
another meeting will be held June
21 at Dawson, when it is hoped
there will be a full meeting of the
committee. Mr. Ayers favored a
convention not later than Dec. 31,
of the present year and Mr. Meach-
am favored one at the usual time
next Spring. The election is not
until Nov. 1903.Smith, Keboe and Gilbert have
been nominated for congress.
Wheeler and Allen voluntarily re-
tire. Rhea, Trimble, Gooch and
White have not yet secured nomi-
nations. Of the Republicans, Irwin
has been endorsed but Boring has
a hot fight on his hands. Moss, of
Rhea's district, will probably be
set aside by the Republicans, and
the nomination given to Wm. H.
Jones.All of the new laws passed by the
last Legislature without emergency
clauses will go into effect tomorrow.
This includes the law against child
labor, imposing a fine of \$25 to \$250
for the employment of a child under
14 years old, in any factory or
workshop, without the written con-
sent of his parents or guardian, ap-
proved by the county attorney.Rumors of fresh scandals are
surrounding the late administra-
tion of Republican carpet-baggers
to Cuba. Gov. Gen. Wood, the ad-
ministration pet, is alleged to have
given Gen. Gomez a bribe of \$25,000
public funds to keep out of the race
for President. It is charged that
Wood got his authority from Wash-
ington.A daughter of Gen. Robt. E. Lee
was arrested at Alexandria, Va.,
for refusing to vacate a seat in the
colored end of a Jim Crow car, when
ordered by the conductor to do so,
without an explanation. It cost her
\$5 and created great excitement and
indignation.The talk of another snap con-
vention in the First railroad dis-
trict, similar to the one called in the
Second, precipitated the contest a
year ahead of time. There are
now four announced candidates and
talk of one or two others. Senator
J. D. Watson, of Mayfield, is the
latest entry into the race.The court of appeals has decided the
Owensboro majority case
against O. T. Thompson. It has
affirmed the title to Baker-Morgan
land to the office.Mr. Stanley has selected his de-
vices for the congressional primary
election. It is a trotting horse go-
ing at a 129 gait.The Court of Appeals has ad-
judged until September. During
the year the court has disposed of
541 cases, leaving only 350 on the
docket.At the Kentucky Press meeting
last year Secretary Bob Morning-
star announced that he would not
again be a candidate for the pos-
ition he has filled for several years.
Already there are prospects of a
lively contest for the place. Mr.
Sam S. English, a young Louisville
journalist, has entered the race and
has secured many promises of sup-
port. Other editors being men-
tioned are James Wallace, of War-
saw; Charlie Hart, of Morganfield,
and Irvin Cobb, of Paducah. Will
A. Wilgus, an honorary member of
the Association, may also be forced
into the contest by his friends.Redfoot lake is safe. The in-
junction against draining it has
been made perpetual. Capt. J. C.
Harris bought an old title, ante-dating
the formation of the lake in 1811,
and undertook to drain it to reclaim
the valuable land lying under it.
The injunction suit was pressed by
the fishermen whose livelihood
would have been taken away. The
lake is 40 miles long and 5 miles
wide.

to-day denied a motion to arrest
judgment in the case of Dr. Orville
S. Burnett, the dentist who entered
into a compact with Mrs. Charlotte

resulted in the death of the woman.
The Judge sentenced the prisoner to
15 years in the penitentiary.
Burnett and Mrs. Nichol went to
the Marlborough Hotel, with the in-
tention of committing suicide. The
woman killed herself with mor-
phine, and Burnett, claiming that
there was not sufficient of the drug
to kill him, made a few scratches
on his neck with a penknife. He
was charged with being a party to

Cholera Morbus a Dangerous Disease.

In many instances attacks of cholera morbus terminate fatally before medicine can be procured or a physician summoned. The safe way is to keep at hand a reliable medicine for use in such cases. For this purpose there is nothing so sure as Chamberlain's Colic, Cholera and Diarrhoea Remedy. W. E. Bosworth, of La Fayette, Ala., says: "In June, 1901, I had a serious attack of cholera morbus and one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy gave me relief in fifteen minutes." HUSTLER'S COMMENTS

On the Brasher-Stanley Episode at Clorganfield.

The congressional race in the Second district is moving along lively these days and in many parts of the district is waxing warm. It was the general expectation that A. O. Stanley, of Henderson, would be the orator of the crowd and John Brasher of Hopkins, the bushwhacker. It seems at any rate that Mr. Stanley proceeded upon the idea that he could eat up the Hopkins county man on the stump and make him take to the bushes. He made a vicious attack upon Mr. Brasher at Seebree and in a report that was sent to the Henderson Gleaner of the Seebree speaking emanating from Mr. Stanley himself, the prediction was made that Brasher would not dare meet Stanley in joint debate again. But Brasher met him again at Hopkinsville, where he took an unfair advantage of Mr. Brasher in the debate and capped the climax by calling him "a pumpkin head." At Morgantown Monday they met again in joint debate and if reports received from reliable sources are correct, the Henderson orator will have to go into the shops for repairs before engaging in another debate with the Pennyroyal Pony from Hopkins. At Morgantown Mr. Brasher opened the debate and confined himself to a discussion of national politics and was followed by Mr. Stanley, who proceeded to ridicule and vilify Mr. Brasher as he has been in the habit of doing at previous appointments. In his fifteen minutes' rejoinder, Mr. Brasher proceeded to take the "hide off" and pay his respects to the gentleman from Henderson. The audience having noticed the temper of the preceding speeches, (Mr. Brasher's gentlemanly reference to his competitors and Stanley's bitter, bulldozing remarks about Brasher), was in a good condition to appreciate the lambasting Brasher gave him. Brasher's rejoinder was delivered through almost continuous applause and continued amid a scene of enthusiasm never seen in the Morgantown court house. The Gleaner made the prediction that Brasher would not meet Stanley in debate again. Now the Hustler wants to make a prediction and that is that if Stanley does meet Brasher again he (Stanley) will confine his remarks to national politics and impersonal oratory. He will not dub John Brasher a "pumpkin head" or attempt to ridicule him again. The whole reason about the business is that Brasher is going to win, Stanley sees it and is getting desperate. The candidates at all expected to meet on the Fourth of July but by that time we think everything will be peaceable and the public will be in no danger from attending the celebration at the fair grounds.—Hustler.

Read It In His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkszeitung. He knows that this paper aims to advertise only the best in its columns, and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me, 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will bear of her wonderful recovery. This valuable liniment is for sale by C. K. Wily.

To Reserve Railway Seats.

The Western railway of France is about to try a device by which passengers may retain their seats in a railway carriage without resort to the expedient of placing luggage on the seat claimed. Over each place in a compartment is placed a disc, and as each is occupied a number is placed on the disc and a small ticket is handed to the passenger or his guard. By a recent judicial decision a passenger can claim a seat by placing objects upon it.

BOKHARA AND KHIVA

Two Semi-Independent Asiatic States whose Rulers Talk of Visiting Europe's Capitals.

The western section of Turkistan between the Aral sea and the Chinese frontier is divided politically between the Russian territory and the still semi-independent Khanates of Bokhara and Khiva. Though nominally self-governing they are both, however, under the suzerainty of Russia. The state of Bokhara is founded by the Saljuks in the thirteenth century. The present ruler belongs to the dynasty of Manghuts, and dates from the end of the eighteenth century. In 1888 the late Amir Mir Amman, Bokhara-din proclaimed a holy war against the Russians, who thereupon invaded his dominions, forced him to cede certain territory and pay an indemnity, while in 1873 a further treaty was signed, in which the state was made practically a Russian dependency. The population of Bokhara dwined considerably up to 1880, but the Trans-Caspian railway has done much for the state lately, though it suffers considerably from loss of water from the Upper Zarafshan, the Russians drawing it off in ever increasing quantities for their irrigation works in Samarkand. The reigning sovereign is the Amir Sayid Abdul Ahad, fourth son of the late Amir by a slave girl. He was born about 1860, was educated in Russia, and succeeded in 1887. The heir is his son Sayid Mir Alim Khan, born January 3, 1880. The Amir has about 20,000 troops largely Russian drilled. The Khan of Khiva, Sayid Mahomed Habib Khan, came to the throne in 1865. Khiva founded, like Bokhara, on the ruins of Tamerlane's Central Asian empire, has long been under Russian control. It is less than a quarter the size of the other state, and supports an army of some 2,000 men.

SCENT PREVENTS INFECTION.

Fact Proved by Experience by an English Perfume Factory.

"Scent is really more of a necessity than is generally supposed," says Mr. Barnett, who has a laboratory of flowers in Birmingham, "taking into consideration the fact that for the past 15 years I have never known a case of illness through any infectious disease out of my factory, not even influenza, showing that perfume is a preventive against infectious disease."

When Birmingham a few years ago was invaded by a terrible epidemic of influenza, Mr. Barnett's perfume factory was one of the very few that escaped with absolutely a clean bill of health.

Among the many wise beliefs of the ancients was one that the scent of flowers was conducive to health and the prolongation of life.

Pliny records 85 remedies discovered from odoriferous rue, 41 whose base was mint, 32 balms from roses, 21 from lilies, bulb and bloom, and 17 essences strong in the virtue of violets.

Pure violet essence is said to be especially suitable to nervous people. But it must be obtained from the flowers themselves, not from the chemical imitations. Chemically derived perfumes are irritant, poisonous even, to persons of especially sensitive constitution. Many have experienced the refreshment of lavender-water when faint from heat or crowding. Lavender is peculiarly suited to highly-strung temperaments. It is soothing, as well as refreshing, without being unduly stimulating.—London Answers.

SLANDER THINLY VEILED.

How One Kansas Told Another What He Thought of Him.

A curious story comes from Kansas, says the New Orleans Times-Democrat, of a man who wanted to tell a neighbor what he thought of him without laying himself open to a suit for damages. So he hit on the plan of sending him each day a postal card with only one word written on it in a large hand, in addition to the date obviously tucked away in one corner. The person receiving the cards recognized the handwriting, and, suspecting something, kept them until they stopped coming, when he read them consecutively in the order of their reception. What he read was: "Idiotious old Bill Jones is the meanest cuss in town," and he had once instituted a suit for slander against the sender. The latter's lawyer, however, called attention to the fact that the postal card contained "ridiculous," though mailed first, was dated the day after the date of the card having the word "town." Moreover, a careful inspection would show that after the word "ridiculous" was an exclamation point, and after this word "town" was an interrogation mark; that the terms of postal cards might be made to read: "Old Bill Jones is the meanest cuss in town? Ridiculous!" He claimed, therefore, that instead of slandering the plaintiff, his client had defended him from slanders, and this was sustained by the court. But all the same, every body is now insisting that the first reading of the cards was the correct one, so that the writer attains his object.

LAIID ON THE TABLE.
But the Bill Represented Not Ideas But Real Money
Early the other night a party gave the time of reception and also a much session of his home. They heard the oldest man speak, and he received a nod from the president and from the president in strict parliamentary style and minutely adopted a resolution increasing the salary from \$3.50 to \$5.00 a month. The proceedings were interrupted by Jerry Constantine, a house telegraph operator, who appeared on the floor waving a dollar bill and demanding recognition. "I move that the gentleman be laid on the table," said a cry from Olds. The motion prevailed, and Constantine was obliged to get in accordance with the motion—Troy (N. Y.) Times.

Sultan's Gorgeous Throne-Room
The throne-room of the Sultan at Constantinople is a picture right. The place is unexampled, and from the ceiling hangs a superb Venetian chandelier, the 200 lights of which make a gleam like that of a sun. The throne is a huge seat covered with red velvet, having arms and back of pure gold.

Don't Wait Until Fall TO BEGIN TO BUILD.

It takes a month or more to get the plan question settled, and the best houses can not be built in a hurry. A house built in the winter is seldom satisfactory, and a fall beginning means a winter ending. Furthermore, prices on all materials are generally higher in the fall. Then too, most people wait till then to build, and work brings a higher price when there is a great deal of it. Hence you have everything to gain and nothing to lose by building in the Spring and Summer.

If You Wish to Build This Year Build Now.

A Beautiful Display!

Geo. W. Young's Show-Window.

An artistic fac-simile in a standard soap of the United States Building at the St. Louis World's Fair, 1903, in one of Young's show-windows on Main street, is presented for the first time to-day, one of the most novel and attractive special displays ever seen in America. The display is a miniature fac-simile of the United States Building at the St. Louis World's Fair, the material used in its construction being

ROYAL CUTICLE SOAP.

a high-class medicated toilet article, handled here exclusively by Geo. W. Young. The view of this building given by this admirable and artistic soap display is a front one showing the mammoth Arch of Triumph with its ornamental columns, and above this a representation of the Goddess of Liberty on the Chariot of Progress. The vast hall, flanked by smaller halls running through the center of the building and reaching to the dome, which is crowned with the American Eagle with outstretched pinions, is shown with wonderful exactness, as are all the various intricacies of architecture and adornment which distinguish this beautiful structure. The interior arrangement of reception and reading rooms, offices, bureau, etc., are all preserved in this miniature production, and in a manner which reflects credit on the designer. The structure occupies the whole space of the window, and stands upon a ground work of dyed sawdust, representing the greenest and most carefully kept lawn. In height it is fully ten feet, and is surrounded as it is by artistically draped American flags, forms a most beautiful picture. It is the cynosure of all eyes on Main street to-day. Regular price 10c per cake but for a limited time 3 cakes go for ten cents.
